## CUSTOM PACKAGE DESIGN

### Step 1. Tell us your budget for photography and videography.

Due to the nature of the photography and videography we provide - you can literally spend as little or as much as you want. Let us help you match you to the right level of service. Otherwise we'll be guessing, wasting your time.

### Step 2. Decide what's most important to you.

If you don't want to capture bride or groom getting ready, we aren't going to push it. Give us an idea of what's important to you. If you don't like deciding, please choose from the different packages we have.

### Step 3. Start customizing your photo or video package.

Our price-list is designed to help you. It allows you to get information much faster than talking to US here at Generic Views Productions. Get prices as you would shopping for Groceries, and let us know what you've selected, we will then prepare a formal quotation for you.

• Extra Videographer	=	R3 500

## **HOW FAR IN ADVANCE DO WE NEED TO BOOK YOU?**

We work on a first come, first serve basis. So, if you want us to be there to capture your special day, book us before we get booked up, especially in high wedding season (September-April). The sooner you get the booking part out of the way, it is all smooth sailing from there and the rest of the planning all falls into place. The sooner you book your preferred vendors the better your chances are of booking those vendors that you really want.

## **HOW DO WE GO ABOUT BOOKING YOU?**

In order to confirm your booking, we require a 50% deposit fee. After the deposit is paid, your date is booked with us and you can tick finding a photographer/Videographer off your list.

## **IS THE DEPOSIT REFUNDABLE?**

Unfortunately, the deposit is non-refundable due to us keeping your date for you and having to say no to other potential bookings on that day. If you have a date change and we have no bookings for the new date, we will gladly move the booking to the new date. But if the day is already booked, we cannot refund the deposit. (Rescheduling is dependent on our availability.)

## **DO WE GET TO MEET WITH YOU BEFORE OUR BIG DAY?**

For us it is very important to meet with our clients before the big day, as it helps to put names and faces together as well as pick up on your personalities and discuss any ideas you might have with regards to photoshoot and other details. We tend to meet with our clients a little closer to the event date as most couples might still be in the early planning stages. We will set a time that best suits you and work from there. If it so happens that you are not around prior to your event date, we would love to set up a Skype meeting with you.
